If you need academic, admission, IT, finance or career help, We have services to help you .

# Why Big Data?

**Average annual salary**  
**\$122,247 per year**  
**2.7 million jobs**

**103 billion dollar**  
**big data analytics market by 2023,**

With data being captured and analyzed at increasingly higher rates, the demand for professionals who can build big data solutions is high: properly exploited data can give businesses a huge competitive advantage. In the next few years, the career opportunities for big data analysts will increase tremendously. More and more companies are finding that the use of data analytics provides a better overall business perspective and, as a result, are able to make more strategic decisions.

## A comprehensive Big Data program at Montreal College IT

Montreal College of Information Technology pioneered specialised IT education in Eastern Canada, long before it became popular, is an institute of higher learning focused on delivering intensive, job-ready IT programs.

Montreal College's Business Intelligence and Visualization Analyst – Big Data Developer profile path will provide you with tools and skills to collect, manage, analyze and interpret data. We will also provide you with the hands-on experience you need to get an edge. Big data being a relatively new field, it will be up to you to increase your already formidable technical skills and stay ahead of new trends and technologies. This is not a career in which you can afford to fall behind!

**Ministry approved IT Program**

**Post Graduate Work Permit**

**Taught by Industry Experts**

**Career pathway Program**

**Co op opportunities**

# Big Data Industry Trends

Microsoft BI better alternative to Tableau, Domo and Sisense

BI Analyst/Data Analyst is ranked number 1 in top 5 IT skills.

The global business intelligence market is predicted to reach \$29.48 billion by 2022

North America remains the largest market for BI software adoption.

More than 46% of businesses are already using a BI tool as a core part of their business strategy.

In 2020, there would be 2.72 million jobs requiring various data science and analytics skills.

Finance (67%), sales (61%), and marketing (60%) are the sectors benefiting the most from self-service BI

# Life In Montreal

Currently recognized as the world's best city for international students\*, cosmopolitan Montreal offers a vibrant, culturally rich blend of North American pragmatism and European joie-de-vivre.

An international leader in such industries as aeronautics, artificial intelligence, information technology, life sciences and interactive entertainment, Montreal is often referred to as the Silicon Valley of the North.

Whatever the season, Montreal always pulses with activity. The city is renowned for its wide array of events, exhibitions and festivals, all bolstered by a thriving food scene.

MCIT's campus is located in the middle of the action, at the very center of Montreal's downtown core.
