2023,**

MCIT's SAP program begins with theoretical topics related to the basic aspects of supply chain management, one of the high-demand modules in SAP. The program then puts more emphasis on functional SAP ERP modules. Students gain knowledge of a broad range of SAP modules like Production Planning (SAP PP), Material Management (SAP MM), and Sales and Distribution (SAP SD).

A comprehensive Supply Chain Management program at Montreal College IT

MCIT's SAP program offers specialized knowledge in components of both the sectors of supply chain management spanning over IT & Business aspects, emphasizing more on functional SAP ERP modules such as, production and planning (SAP PP), ware house management (SAP WM), sales and distribution (SAP SD), material management (SAP MM) to empower you with the knowledge of: improving speed to market, management of inventory and transportation infrastructures, evaluating systems of an enterprise and selecting the right suppliers, enablement of online purchasing and supply chain functions, choosing right options for outsourcing and partnerships, management of contracts and client services, design of logistical networks.

The entire program is focused on implementing solutions to various scenarios discussed in class, to make you ready for the industry as you graduate. Hence you shall be working on a final project of configuring various components with end-to-end scenarios in SAP to gain real-world knowledge.
